1. UKBTR Article 8 website disclosure

Summary

The Savills IM UK Build to Rent Fund FCP-RAIF (the **Fund**) is considered by Savills Investment Management (Luxembourg) S.a.r.l. (the **Manager**) to fall within the scope of Article 8 of the EU's Sustainable Finance Disclosure Regulation (**SFDR**), as a fund that promotes environmental and/or social characteristics.

This disclosure sets out the Fund's approach to sustainable investing and the ways in which sustainability risks and factors are integrated into portfolio management decisions and how environmental and/or social characteristics are promoted by the Fund. This includes:

- A summary of the key environmental and social characteristics of the Fund, through the establishment of an ESG programme specific to the Fund;
- Confirmation that all assets in the Fund's portfolio are subject to the sustainability criteria set out in the Fund's ESG programme, which aims at improving the environmental sustainability performance of the portfolio and implementing standards for new investments;
- Confirmation that as an Article 8 product the Fund has certain sustainability characteristics but does not have sustainable investment as its objective and that the Fund, as the date of these disclosures, does not invest in "sustainable investments" as defined by Article 2(17) SFDR;
- An explanation of the how the Fund assesses sustainability risks, factors and opportunities and implements a targeted action plan in relation to its assets;
- The indicators that are used to measure success, such as (i) the floor space in sq m in the Fund with a costed net zero carbon plan, (ii) the energy use of the occupiers, (iii) the proportion of Green leases with tenants and (iv) the proportion of assets undertaking a physical climate risk assessment;;
- The monitoring process for collecting the environmental and social data relevant to the indicators;
- The key industry aligned methodologies that are used;
- Approach to occupier engagement; and,
- The process for identifying data quality issues and the mitigations in place for ensuring this does not impact adversely on the Fund.

The Fund operates under the Savills IM Responsible Investment Policy. Under this policy, the Manager identifies the specific material sustainability risks to the Fund and integrates these into its investment decision making process, as well as considering the material adverse impacts of its investment decisions on relevant sustainability factors.

No sustainable investment objective

The Fund promotes environmental or social characteristics but does not have as its objective sustainable investments.

At the date of this disclosure, the Fund does not invest in sustainable investments as defined by Article 2(17) of the SFDR, however, it may do in the future. If so, the relevant sections of these disclosures will be updated accordingly.

Environment and/or social characteristics of the financial product

The Fund takes a holistic approach to sustainability, integrating environmental, social and governance criteria into portfolio management decisions, and does not seek to promote one specific aspect. This is practiced through a ESG programme specific to the Fund (the “**ESG Programme**”), as described in the investment strategy section below. As a Fund investing in real assets, the Manager is aware of the ability to have an impact on both environmental and social themes. These include:

- Assessing building sustainability at acquisition and, ensuring that these have particular industry standards such as BREEAM or Home Quality Mark.
- Improving existing buildings to demonstrate impact on sustainability factors and to reduce sustainability risks;
- Reducing energy, water and waste consumption, understanding the climate risks and opportunities; procuring materials from sustainable sources; and
- Improving occupier wellbeing where possible.

The Manager uses, where possible the following sustainability indicators to measure progress for the Fund. These may include:

- % floor space in sq m in the Fund with a costed net zero carbon plan by 2040, aligned to the Carbon Risk Real Estate Monitor (“CRREM”) (or equivalent) 1.5° decarbonisation pathway.
- Occupier energy use, reported as kWh/m²;
- % of new Green Leases offered to tenants; and
- % of assets undertaking a physical climate risk assessment

Investment Strategy

The investment policy and strategy of the Fund is set out in the Fund's offering memorandum and complemented by the information below.

To ensure our sustainability strategy is successfully implemented, we ensure that for each element of our ESG policy, the relevant sustainability risks, factors and opportunities are identified and incorporated on a continuous basis, i.e. into every stage of the property transaction: property acquisition, asset management, development / refurbishment / fit-out and disposal.

a) ESG Programme in line with CRREM pathway

The Fund will implement a specific ESG Programme aimed at improving the environmental sustainability performance of the portfolio and implementing standards for new investments.

As part of the ESG Programme, the Fund aims to develop a 2040 Net Zero Carbon Pathway and will carry out a costed Net Zero Carbon alignment analysis (using benchmarks such as London Energy Transformation Initiative benchmarks or equivalent and/or CRREM) for 100% of assets at acquisition. Where good quality data is not available at the point of acquisition, this will be undertaken within two years of acquisition and, for each asset held more than two years, the analysis will be carried out and the results reported annually.

In addition to the costed Net Zero Carbon Plan alignment objective, the Fund aims to meet with at least one of the following as part of the ESG Programme:

- i. Holding a portion of underlying assets for which the lease agreements entered into with tenants contain green lease clauses, including "minimum requirements" such as data sharing commitments. 100% of tenants will be offered green lease clauses.
- ii. Energy data shall be collected for a minimum of 30% of the lettable area of the portfolio of the assets in the Fund.
- iii. All assets within the Fund with a holding period of more than three years from the date of this disclosure must complete a physical climate risk assessment

These above-mentioned objectives may be subject to a reassessment and may therefore be amended from time to time.

b) Binding elements of the strategy

The objective regarding the obligation to align a majority of floor space with the costed Net Zero Carbon Plan (or equivalent) 1.5° decarbonisation pathway is binding on the Management Company for each asset in the portfolio, as well as the implementation of the ESG Programme. Other binding elements include:

- i) Holding a portion of underlying assets for which the lease agreements entered into with new tenants contain green lease clauses, including "minimum requirements" such as data sharing commitments. 100% of new leases will be offered with a green lease clause with the percentage of occupiers accepting green leases tracked.
- ii) Energy data shall be collected for a minimum of 30% of the lettable area of the portfolio of the assets in the Fund.
- iii) All assets within the Fund with a holding period of more than three years from the date of this disclosure must complete a physical climate risk assessment.

c) Good governance

As the Fund invests in real assets and does not invest in companies with employees, the good governance assessment of the investee companies is therefore not relevant in the investment decision process of the Fund. However, the Fund makes sure that governance issues are assessed in the materiality assessment to identify the most material risks, which include namely human rights, modern slavery, corruption and labour laws.

Proportion of investments

All assets in the Fund's portfolio are subject to the sustainability criteria set out in the Fund's ESG All assets in the Fund's portfolio are subject to the sustainability criteria set out in the Fund's ESG Programme and are thus used to meet the environmental and social characteristics promoted by the Fund. ESG assessments carried out as part of the ESG policy may lead the Manager to implement measures to improve the ESG ratings and lower the identified risks through a structured asset improvement plan.

There is no particular sub-division between environmental and social objectives given our holistic approach to sustainability.

At the date of this Memorandum, the Fund does not invest in sustainable investments neither under Article 2(17) of the SFDR nor under the EU Taxonomy and therefore does not have any sustainable investments with an environmental objective. The minimum sustainable investments with an environmental objective aligned with the EU Taxonomy is therefore 0%. The Fund may invest in such sustainable investments in the future, in which case the relevant sections of these disclosures will be updated.

Monitoring of environmental or social characteristics

a) Audit

Monitoring is undertaken at various stages and for different purposes.

The Fund carries out sustainability audits to

- establish the current building performance, covering energy, water, waste, and health & wellbeing and to understand operational set-up as the basis for developing a sustainability management plan
- identify technological and operational saving opportunities to form the basis of a detailed sustainability action plan and where relevant, to complete a cost benefit analysis

The Fund also regularly monitors energy consumption to identify trends and outliers in consumption that can then be investigated with property managers.

The Fund uses an external ESG consultant to collate data streams relevant to ESG performance to allow the Fund to measure performance.

b) Monitoring of the CRREM assessment

The Fund monitors the relevant data to comply with its ESG Programme, in particular in the context of the CRREM (or equivalent) assessment. The assessment may be unable to provide an accurate representation of the Fund's position on the net zero trajectory, so the Fund will annually track a costed net zero implementation plan by 2040, which will be in place by the later of the dates that are respectively two years from the asset being acquired and the implementation of these disclosures.

c) Consideration of principal adverse impacts

To monitor the environmental and social characteristics of Sub-Fund A, the principal adverse impact indicators are identified and considered. All investment decisions in relation to the Fund broadly consider the principal adverse impacts of those decisions. The Management Company, together with the Investment Adviser, consider (i) the exposure to fossil fuels through real estate assets and (ii) exposure to energy-inefficient real estate assets, in line with the indicators related to real estate assets provided under SFDR. In addition, the following voluntary principal adverse impact indicators are also considered: (i) GHG emissions (scope 1, 2 and 3) and (ii) energy consumption.

Qualitative and/or quantitative reporting on the above-mentioned indicators will be included in the dedicated section in the periodic report relating to Sub-Fund A.

Methodologies

The Fund undertakes:

- Appropriate Green building certifications where this adds value to the portfolio, e.g Home Quality Mark
- EPC ratings
- Reviews of the performance data collated on its behalf by external ESG consultants, as noted above.

Where there is value to the investor, the fund will report to Benchmarks such as GRESB. Measurement and disclosure are vital parts of responsible property investment, and the participation in Global Real Estate Sustainability Benchmark (GRESB) can provide an effective means to achieve this. GRESB provides a means of measuring a product's environmental performance and benchmarks this against the environmental and social performance of 450 other real estate companies and funds. More information on GRESB can be found at <http://gresb.com/>.

Data sources and processing

In addition to our in-house team we use a range of ESG data providers and seek to align with particular environmental standards as described in "Methodologies" above.

Limitations to methodologies and data

Available ESG and sustainability data has its limitations particularly environmental data because this research is still emerging. We regularly review the data providers we source from, and we continuously seek to improve transparency, disclosure and data provision in relation to the Fund. Where data gaps exist, for example where we are unable to capture carbon emissions or energy

consumption data from our occupiers, we will use reference benchmarks to make informed estimates and be transparent where this process has been applied. A target will then be put in place to reduce reliance on estimations so that eventually we are reporting actual emissions. In case data gaps pose challenges to make an informed decision and ensure alignment of the Fund with its sustainable strategy, our responsible investment specialists, together with the dedicated fund team jointly recommend mitigation actions. This could include testing an approach on a single asset before applying that approach to the whole Fund.

Due diligence

Due diligence is carried out at various points in the investment cycle and for different purposes. The Management Company conducts detailed sustainability due diligence for all acquisitions. The intention is to understand the ESG risks and opportunities at the earliest stage in the lifecycle, in line with the ESG Programme applicable by the Fund. This includes, for example:

- Deal sourcing
- Environmental screening for climate risk and green building certification
- Acquisition due diligence
- Undertake environmental site condition assessments (e.g. pollution risk, toxic materials) but also review energy efficiency to ensure any improvements needed are costed into the asset management plan.

Where possible, due diligence is carried out on managing agents, where the fund manager looks to select agents who have a strong track record in sustainability and responsible property management, and expect that they adhere to our Responsible Investment strategy and incorporate ESG factors into all aspects of their management mandate.

Engagement Policies

The Fund actively engages with the tenants of its properties regularly and across a number of issues as the Management Company aims to continually improve the properties within its portfolio. The Management Company continually seeks open and collaborative engagement with tenants also with the aim of improving ESG reporting across areas such as water, waste and energy usage and with the aim of improving the overall sustainability of the properties in line with the relevant asset plan.

In accordance with the requirements of SFDR a German, Danish, Dutch, Finnish, French, Italian, Norwegian and Swedish translation of the summary section of this disclosure is appended below.

Nachhaltigkeitsbezogene Offenlegungspflichten

Da der Savills IM Build to Rent Fund FCP-RAIF (der **Fond**) ökologische und/oder soziale Merkmale bewirbt, fällt er nach Ansicht von Savills Investment Management (Luxemburg) S.à.r.l. (der **Manager**) in den Anwendungsbereich von Artikel 8 der EU-Verordnung über nachhaltigkeitsbezogene Offenlegungspflichten im Finanzdienstleistungssektor (Sustainable Finance Disclosure Regulation - **SFDR**).

In der vorliegenden Offenlegung werden die Vorgehensweise des Fonds in Bezug auf nachhaltiges Investieren, die Methoden zur Einbeziehung von Nachhaltigkeitsrisiken und -faktoren in die Entscheidungen des Portfoliomanagements und die Art und Weise der Bewerbung ökologischer und/oder sozialer Merkmale seitens des Fonds dargelegt. Dies beinhaltet:

- Eine Zusammenfassung der wichtigsten ökologischen und sozialen Merkmale des Fonds, die sich vor allem auf die Verringerung des Kohlendioxidausstoßes beziehen, wobei der Schwerpunkt auf der Verringerung des Energieverbrauchs und der Umstellung der Vermögenswerte des Fonds auf kohlenstoffarme Gebäude liegt;
- Die Bestätigung, dass sämtliche Vermögenswerte im Portfolio des Fonds den Nachhaltigkeitskriterien unterliegen, die im ESG-Programm des Fonds dargelegt sind, das auf die Einhaltung der Zielsetzungen des CRREM-Dekarbonisierungspfads ausgerichtet ist;
- Die Bestätigung, dass der Fonds als Artikel 8-Produkt bestimmte Nachhaltigkeitsmerkmale aufweist, aber keine nachhaltigen Investitionen zum Ziel hat und dass der Fonds zum Zeitpunkt der vorliegenden Offenlegung nicht in „nachhaltige Investitionen“ im Sinne von Artikel 2(17) SFDR investiert;
- Eine Erläuterung dahingehend, wie der Fonds die Nachhaltigkeitsrisiken, -faktoren und -chancen bewertet und einen gezielten Aktionsplan in Bezug auf seine Vermögenswerte umsetzt;
- Die zur Messung des Erfolgs herangezogenen Indikatoren wie beispielsweise (i) die im Fonds enthaltene Grundfläche (in m²) mit kalkuliertem Netto-Null-Co₂-Plan, (ii) der Energieverbrauch der Bewohner, (iii) der Anteil grüner Mietverträge mit den Mietern und (iv) der Anteil von Vermögenswerten, die das physikalische Klimarisiko bewerten;
- Den Überwachungsprozess zur Erfassung der für die Indikatoren relevanten Umwelt- und Sozialdaten;
- Die wichtigsten branchenüblichen Methoden, die angewendet werden;
- Die Vorgehensweise zur Verpflichtung der Bewohner; und
- Das Verfahren zur Ermittlung von Datenqualitätsproblemen und die vorhandenen Abhilfemaßnahmen zur Sicherstellung des Verhinderns nachteiliger Auswirkungen auf den Fonds.

Die Tätigkeit des Fonds unterliegt der verantwortungsbewussten Investitionspolitik von Savills IM. Im Rahmen dieser Politik ermittelt der Manager die wichtigsten spezifischen Nachhaltigkeitsrisiken für den Fonds und bezieht diese in seinen Investitionsentscheidungsprozess ein. Darüber hinaus berücksichtigt er die wichtigsten negativen Auswirkungen seiner Investitionsentscheidungen auf relevante Nachhaltigkeitsfaktoren. Zusätzliche Informationen darüber, wie der Manager nachteiligen Auswirkungen in Bezug auf den Fonds Rechnung trägt, werden zu gegebener Zeit im Einklang mit den Anforderungen der SFDR offengelegt.

2.2 Danish

Oversigt

Savills IM UK Build to Rent Fund FCP-RAIF ("Fonden"), forventes af Savills Investment Management (Luxembourg) S.a.r.l. ("Leder") at ligge inden for omfanget af artikel 8 i Europa Parlamentets forordning om oplysninger om bæredygtig finansiering ("SFDR"), som en fond der fremmer miljømæssige og/eller sociale kendetegn.

Denne offentliggørelse angiver Fondens tilgang til bæredygtig investering, og den måde som bæredygtige risici og faktorer er integreret i ledelsens beslutninger angående porteføljen, og hvordan miljømæssige og/eller sociale kendetegn fremmes af Fonden. Dette omfatter:

- En oversigt over de vigtige miljømæssige og sociale kendetegn for Fonden, hvilket hovedsageligt omfatter kuldioxidreduktion, ved at fokusere på en reduktion af energiforbruget og overføre Fondens aktiver til bygninger med lavt kuldioxidforbrug;
- Bekræftelse på, at alle aktiver i Fondens portefølje er underlagt kriterierne for bæredygtighed som er angivet i Fondens ESG-program, som er fokuseret på overholdelse af bestemmelserne i CRREM-angivelsen;
- Bekræftelse på, at som en del af artikel 8, har Fonden særlige kendetegn for bæredygtighed, men deres formål er ikke bæredygtig investering, og på datoen for offentliggørelsen, har Fonden ikke "investeret i bæredygtighed" som angivet i artikel 2(17) SFDR;
- En forklaring på hvordan Fonden vurderer risici, faktorer og muligheder for bæredygtighed, og implementerer en målrettet handlingsplan i forhold til deres aktiver;
- De indikatorer som anvendes til at måle en succes, såsom (i) gulvareal i kvadratmeter i Fonden med en plan for en beregnet nul-kuldioxidemission, (ii) energiforbruget af de personer der anvender arealet, (iii) andelen af grønne leasingaftaler med lejere og (iv) andelen af aktiver som gennemgår en fysisk klimarisikovurdering;
- Overvågningsprocessen for indsamling af miljømæssige og sociale data, som er relevante for indikatorerne;
- Der anvendes de primære branchejusterede metodologier;
- Tilgang til lejerengagement; og,
- Processen for at identificere problemer med datakvalitet, og de metoder der anvendes for at sikre, at dette ikke påvirker Fonden ugunstigt.

Fonden styres i henhold til Savills IM ansvarlige investeringspolitik. I henhold til denne politik, identificerer lederen de særlige risici for materialebæredygtighed for Fonden, og integrerer disse i deres beslutningstagningsproces for investeringer, og overvejer også materialernes ugunstige påvirkninger af deres investeringsbeslutninger i forhold til relevante bæredygtighedsfaktorer. Yderligere oplysninger om hvordan lederen er ansvarlig for ugunstige påvirkninger i forhold til Fonden, vil blive offentliggjort når tiden er inde, i overensstemmelse med kravene i SFDR.

2.3 Dutch

Samenvatting

Het Savills IM UK Build to Rent Fund FCP-RAIF (het Fonds) wordt door Savills Investment Management (Luxembourg) S.a.r.l. (de Manager) geacht binnen het kader van Artikel 8 van de EU Verordening met betrekking tot informatieverstrekking over duurzaamheid (SFDR) te vallen, als een beleggingsfonds dat milieugerelateerde of sociale karakteristieken stimuleert.

Deze bekendmaking beschrijft de aanpak van het Fonds van duurzaam investeren en de manieren waarop duurzaamheids- risico's en factoren zijn opgenomen in beslissingen over het portefeuillebeheer en hoe milieugerelateerde en/of sociale karakteristieken worden gestimuleerd door het Fonds. Dit omvat:

- Een samenvatting van de belangrijkste milieugerelateerde en sociale karakteristieken van het Fonds, die voornamelijk CO2 reductie omvatten, gericht op het verminderen van energieverbruik en de overgang van vastgoedobjecten in het Fonds naar CO2-arme gebouwen.
- Bevestiging dat alle vastgoedobjecten in de portfolio van het Fonds zijn onderworpen aan de criteria in het ESG programma van het Fonds dat zich richt op het naleven van de doelstelling van de CCREM tijdslijn.
- Bevestiging dat, als een Artikel 8 product, het Fonds bepaalde duurzaamheidskarakteristieken heeft, maar geen doelstelling heeft van duurzame investeringen; en dat het Fonds, per de datum van deze bekendmaking, niet investeert in "duurzame investeringen", zoals gedefinieerd in Artikel 2(17) SFDR.
- Een uitleg over hoe het Fonds risico's, factoren en kansen van duurzaamheid inschat, en hoe het een doelgericht actieplan met betrekking tot zijn vastgoedobjecten implementeert.
- De indicatoren die gebruikt worden om succes te meten, zoals (i) het vloeroppervlak in m² in het Fonds met een bekostigd klimaatneutraliteitsplan , (ii) het energieverbruik door de gebruikers, (iii) het aandeel van 'groene' huurovereenkomsten en (iv) het aandeel van vastgoedobjecten waarvoor een fysieke klimaatrisicoanalyse is gedaan.
- Het proces dat gebruikt wordt voor het verzamelen van milieu en sociale data die van belang zijn voor bovengenoemde indicatoren.
- De belangrijkste industrie-standaard methodieken die worden gebruikt;
- De benadering van gebruikersbetrokkenheid; en,
- Het proces voor het herkennen van datakwaliteitsproblemen en de beperkende maatregelen die genomen zijn om ervoor te zorgen dat deze geen negatieve gevolgen hebben voor het Fonds.

Het Fonds werkt onder de Savills IM Verantwoorde Investerings Beleid. Onder dit beleid bepaalt de Manager de specifieke materiële duurzaamheidsrisico's voor het Fonds en neemt deze mee in zijn besluitvormingsproces over investeringen, terwijl hij ook de materiële negatieve gevolgen van zijn investeringsbeslissingen op relevante duurzaamheidsfactoren in het oog houdt. Aanvullende informatie over hoe de Manager rekening houdt met zulke negatieve gevolgen met betrekking tot het Fonds zal te zijner tijd gepubliceerd worden, in lijn met de bepalingen van SFDR.

2.4 Finnish

Yhteenveto

Savills IM UK Build to Rent Fund (rahasto) kuuluu Savills Investment Management (Luxembourg) S.a.r.l.:n (hoitaja) mukaan EU:n kestävän rahoituksen tiedonantoasetuksen (SFDR) 8 artiklan soveltamisalaan rahastona, joka edistää ympäristöllisiä ja/tai sosiaalisia ominaisuuksia.

Tässä tiedotteessa esitetään rahaston lähestymistapa kestäväan sijoittamiseen sekä tavat, joilla kestäväan kehitykseen liittyvät riskit ja tekijät otetaan huomioon salkunhoitopäätöksissä ja joilla rahasto edistää ympäristöön ja/tai yhteiskuntaan liittyviä ominaisuuksia. Tähän sisältyy:

- Yhteenveto rahaston keskeisistä ympäristöllisistä ja sosiaalisista ominaisuuksista, jotka kattavat pääasiassa hiilidioksidipäästöjen vähentämisen ja keskittyvät energiankulutuksen vähentämiseen ja rahaston omaisuuden siirtämiseen vähähiilisiin rakennuksiin;
- Vahvistus siitä, että kaikkiin rahaston salkun omaisuuseriin sovelletaan rahaston ESG-ohjelmassa vahvistettuja kestävyyskriteerejä, joissa keskitytään CRREM-polun mukaisen tavoitteen noudattamiseen;
- Vahvistus siitä, että 8 artiklan mukaisena tuotteena rahastolla on tiettyjä kestäväan kehitykseen liittyviä ominaisuuksia, mutta sen tavoitteena ei ole kestävä sijoittaminen ja että rahasto ei näiden tietojen antamispäivänä sijoita "kestäviin sijoituksiin", sellaisina kuin ne on määritelty SFDR:n 2 artiklan 17 kohdassa;
- Selvitys siitä, miten rahasto arvioi kestäväan kehitykseen liittyviä riskejä, tekijöitä ja mahdollisuuksia ja toteuttaa varojensa osalta kohdennettua toimintasuunnitelmaa;
- Onnistumisen mittaamiseen käytettäviä indikaattoreita ovat esimerkiksi seuraavat: i) rahaston neliömetreinä ilmaistu pinta-ala, jolla on kustannuslaskennan mukainen nollahiilisuunnitelma, ii) asukkaiden energiankäyttö, iii) vihreiden vuokrasopimusten osuus vuokralaisten kanssa ja iv) fyysisen ilmatoriskin arvioinnin suorittaneiden omaisuuserien osuus;
- Seurantaprosessi indikaattoreiden kannalta merkityksellisten ympäristö- ja sosiaalisten tietojen keräämiseksi;
- Käytetyt keskeiset toimialan yhdenmukaistetut menetelmät;
- Lähestymistapa asukkaiden sitouttamiseen; ja,
- prosessi, jolla tunnistetaan tietojen laatuun liittyvät ongelmat, ja käytössä olevat lieventämistoimenpiteet, joilla varmistetaan, ettei tämä vaikuta haitallisesti rahastoon.

Rahasto toimii Savills IM:n vastuullisen sijoittamisen periaatteiden mukaisesti. Tämän politiikan mukaisesti rahastonhoitaja yksilöi rahastoon kohdistuvat olennaiset kestävyysriskit ja sisällyttää ne sijoituspäätöksentekoprosessiinsa sekä ottaa huomioon sijoituspäätöksensä olennaiset kielteiset vaikutukset olennaisiin kestävyystekijöihin. Lisätietoja siitä, miten rahastonhoitaja ottaa huomioon rahastoon kohdistuvat haitalliset vaikutukset, julkistetaan aikanaan SFDR:n vaatimusten mukaisesti.

2.5 French

Sommaire

Le Savills IM UK Build to Rent Fund FCP-RAIF (le Fonds) est considéré par Savills Investment Management (Luxembourg) S. à.r.l. (le Gérant) comme étant inclus dans le cadre de l' Article 8 du Règlement sur la publication d'informations en matière de durabilité dans le secteur des services financiers de l'Union Européenne (SFDR), comme un fonds de placement commun qui promeut des caractéristiques environnementales ou sociales.

Cette publication décrit l'approche du Fonds vis-à-vis de l'investissement durable et les façons dont lesquelles les risques et facteurs liés à la durabilité sont intégrés dans les décisions de la gestion de portefeuille, et comment les caractéristiques environnementales et / ou sociales sont promus par le Fonds. Ceci inclut :

- Un résumé des caractéristiques environnementales et / ou sociales clés du Fonds, qui couvrent principalement la réduction carbone, en focalisant sur la réduction de la consommation énergétique et la transition des actifs du Fonds vers des bâtiments bas carbone.
- Confirmation que tous les actifs dans le portefeuille du Fonds sont soumis aux critères de durabilité comme décrits dans le programme ESG du Fonds qui est focalisé sur l'accordance des objectifs du guide de route CCREM.
- Confirmation que, étant un produit soumis à l'Article 8 du SFDR, le Fonds a des caractéristiques liées à la durabilité, mais ne définit pas l'investissement responsable comme son objectif, et que le Fonds, à la date de cette publication, n'investit pas dans des 'investissements responsables' comme défini par Article 2(17) du SFDR.
- Une explication comment le Fonds évalue les risques, facteurs et opportunités de la durabilité, et comment il met en place un plan d'action pointu pour ses actifs dans ce cadre.
- Les indicateurs qui sont utilisés pour mesurer le succès, comme (i) la surface en m² dans le Fonds avec un plan net zéro carbone chiffré, (ii) la consommation d'énergie par les utilisateurs, (iii) la proportion des contrats de bail 'verts' avec les locataires, et (iv) la proportion des actifs pour lesquels une analyse des risques de climat physiques a été faite.
- Le processus de suivi de la collecte des données environnementales et sociales applicables aux indicateurs susmentionnés.
- Les méthodes clés alignées sur l'industrie qui sont utilisées
- L'approche vis-à-vis de l'engagement avec les occupants ; et
- Le processus pour l'identification des problèmes de qualité des données, et les mesures en place pour assurer que le Fonds ne subit pas un impact négatif en conséquence.

Le Fonds opère sous la Politique de Savills IM concernant les Investissements Responsables. Sous cette politique, le Gérant identifie les risques matériels spécifiques liés à la durabilité pour le Fonds et les intègre dans son processus de décision d'investissement, considérant également les effets négatifs importants de ses décisions d'investissements sur les facteurs de durabilité applicables. Des informations supplémentaires sur la façon dont le Gérant tiendra en compte les impacts négatifs dans le cadre du Fonds seront publiées en temps voulu, en accordance avec les demandes du SFDR.

2.6 Italian

Sommario

Il Savills IM UK Build to Rent Fund (il Fondo) è considerato da Savills Investment Management (Lussemburgo) S.a.r.l. (il Gestore) come rientrante nell'ambito di applicazione dell'articolo 8 del Regolamento dell'UE relativo all'informativa sulla sostenibilità nel settore dei servizi finanziari (SFDR), in quanto fondo che promuove aspetti ambientali e/o sociali.

La presente informativa illustra l'approccio del Fondo all'investimento sostenibile e le modalità in cui i rischi e i fattori di sostenibilità sono integrati nelle decisioni di gestione del portafoglio e il modo in cui le caratteristiche ambientali e/o sociali sono promosse dal Fondo. Ciò include:

- una sintesi delle principali caratteristiche ambientali e sociali del Fondo, che riguardano principalmente la riduzione delle emissioni di carbonio, concentrandosi sulla riduzione del consumo energetico e sulla transizione delle attività del Fondo verso edifici a basse emissioni di carbonio;
- la conferma che tutte le attività nel portafoglio del Fondo siano soggette ai criteri di sostenibilità stabiliti nel programma ESG del Fondo, focalizzato sul rispetto dell'obiettivo in linea con il percorso CRREM;
- la conferma che, in quanto prodotto di cui all'articolo 8, il Fondo presenta determinate caratteristiche di sostenibilità, ma non ha come obiettivo l'investimento sostenibile e che, alla data della presente informativa, non realizza "investimenti sostenibili" come definiti dall'articolo 2, paragrafo 17, dell'SFDR;
- una spiegazione del modo in cui il Fondo valuta i rischi, i fattori e le opportunità di sostenibilità e di come attua un piano d'azione mirato in relazione alle proprie attività;
- gli indicatori che vengono utilizzati per misurare il successo, come (i) la superficie in mq nel Fondo con un piano dettagliato a zero emissioni di carbonio nette, (ii) il consumo energetico degli occupanti, (iii) la percentuale di locazioni verdi con inquilini e (iv) la percentuale di attività che effettuano una valutazione del rischio climatico fisico;
- il processo di monitoraggio per la raccolta dei dati ambientali e sociali relativi agli indicatori;
- le principali metodologie allineate al settore che vengono utilizzate;
- l'approccio all'impegno degli occupanti;
- il processo di identificazione dei problemi di qualità dei dati e le mitigazioni in atto al fine di garantire che ciò non abbia un impatto negativo sul Fondo.

Il Fondo opera in conformità con la Politica sull'investimento responsabile di Savills IM. Ai sensi di tale politica, il Gestore identifica i rischi di sostenibilità materiali specifici per il Fondo e li integra nel suo processo decisionale di investimento, oltre a considerare gli impatti negativi materiali delle proprie decisioni di investimento sui fattori di sostenibilità rilevanti. Ulteriori informazioni su come il Gestore tiene conto degli impatti negativi in relazione al Fondo saranno divulgate a tempo debito, in linea con i requisiti dell'SFDR.

2.7 Norwegian

Oppsummering

Savills IM UK Value Boxes Fund FCP-RAIF (Fondet) vurderes av Savills Investment Management (Luxemburg) S.à r.l. (Forvalteren) omfattes av Artikkel 8 av Eus Offentliggjøringsforordningen (SFDR), som et fond som promoterer miljømessige og/eller sosiale karakteristikk.

Denne offentliggjøringen stadfester Fondets holdning til bærekraftig investering og måtene bærekraftsrisikoer og faktorer integreres i avgjørelser om porteføljeforvaltningen og hvordan miljømessig og/eller sosiale karakteristikk promoterer av Fondet. Dette inkluderer:

- En oppsummering av Fondets viktigste miljømessige og sosiale karakteristikk, gjennom opprettelsen av en ESG-programspesifisering for Fondet;
- Bekreftelse på at alle ressurser i Fondets portefølje underlegges de bærekraftskriteriene satt i Fondets ESG-program, som har som mål å forbedre den bærekraftige miljøytelsen til porteføljen og implementere standarder for nye investeringer;
- Bekreftelse på at Fondet, som et Artikkel 8-produkt, har visse bærekraftskarakteristikk, men ikke har bærekraftig investering som sitt mål, samt at Fondet, på datoen for disse offentliggjøringene, ikke investerer i "bærekraftige investeringer" som definert i Artikkel 2(17) SFDR;
- En redegjørelse for hvordan Fondet vurderer bærekraftsrisikoer, faktorer og muligheter, og implementerer en målrettet handlingsplan relatert til dets ressurser;
- Indikatorene som er benyttet for å måle suksess som (i) grunnflate i kvadratmeter i Fondet med en kostnadsberegnet netto null karbonplan, (ii) beboernes energiforbruk, (iii) proporsjonen av Grønne leieavtaler med leietakere, og (iv) proporsjonen av ressurser som gjennomgår en fysisk klimarisikovurdering;
- Overvåkningsprosessen for innhenting av miljømessige og sosiale data som er relevant for indikatorene;
- Hovedmetodene som benyttes;
- Holdning til beboeres engasjement; og,
- Prosessen for å identifisere datakvalitetsutfordringer og tiltakene som finnes for å sikre at disse ikke påvirker Fondet negativt.

Fondet opererer under Savills IM Responsible Investment Policy. Under denne policyen identifiserer Forvalteren Fondets spesifikke materielle bærekraftsrisikoer, og integrerer disse i dets avgjørelser om investeringer, samt vurderer de materielle negative påvirkningene av dets investeringer på relevante bærekraftsfaktorer

Sammanfattning

Savills IM UK Build to Rent Fund FCP-RAIF (Fonden) anses av Savills Investment Management (Luxembourg) S.a.r.l. (fondbolaget) omfattas av artikel 8 i EU:s förordning om offentliggörande av information om hållbar finansiering. (SFDR), som en fond som främjar miljömässiga och/eller sociala egenskaper.

Denna information beskriver fondens strategi för hållbara investeringar och hur hållbarhetsrisker och hållbarhetsfaktorer integreras i besluten om portföljhantering och hur miljömässiga och/eller sociala egenskaper främjas av fonden. Detta omfattar:

- En sammanfattning av fondens viktigaste miljömässiga och sociala egenskaper, som huvudsakligen omfattar reduktion av koldioxidutsläpp, med fokus på minskad energiförbrukning och övergång till byggnader med låga koldioxidutsläpp;
- Bekräftelse på att alla tillgångar i fondens portfölj omfattas av de hållbarhetskriterier som anges i fondens ESG-program som är inriktat på att uppfylla målet i linje med CRREM;
- Bekräftelse på att fonden i egenskap av artikel 8-produkt har vissa hållbarhetsegenskaper, men att den inte har hållbara investeringar som mål och att fonden vid datumet för dessa upplysningar inte investerar i "hållbara investeringar" enligt definitionen i artikel 2.17 i SFDR;
- En förklaring av hur fonden bedömer hållbarhetsrisker, faktorer och möjligheter och genomför en målinriktad handlingsplan för sina tillgångar;
- De indikatorer som används för att mäta framgång är t.ex. i) golvytan i kvadratmeter i fonden med en kostnadsberäknad plan för koldioxidfri nettokonsumtion, (ii) energianvändningen hos hyresgäster, (iii) andelen gröna hyresavtal med hyresgäster och (iv) andelen tillgångar som genomgår en fysisk klimatbedömning;
- Övervakningsprocessen för insamling av miljöuppgifter och sociala uppgifter som är relevanta för indikatorerna;
- De viktigaste industrianpassade metoderna som används;
- Strategi för att engagera hyresgästerna; och,
- Processen för att identifiera problem med datakvaliteten och de åtgärder som vidtagits för att se till att detta inte inverkar negativt på fonden.

Fonden arbetar enligt Savills IM:s policy för ansvarsfulla investeringar. Enligt denna policy identifierar förvaltaren de specifika materiella hållbarhetsriskerna för fonden och integrerar dessa i sin beslutsfattande process för investeringar, samt överväger de materiella negativa effekterna av sina investeringsbeslut på relevanta hållbarhetsfaktorer. Ytterligare information om hur förvaltaren redovisar negativa effekter i förhållande till fonden kommer att offentliggöras i sinom tid, i enlighet med kraven i SFDR.
